APPENDIX I.

Physical condition for admission to the Prince of Wales's Military College, Dehra Dun.

1. To be passed as fit for admission to the Prince of Wales's Military College, a candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of military duty.

2. A standard for height and chest measurement and physical development cannot be laid down, but the candidate should not be below the average for his age and race.

3. The candidate's height will be measured as follows:—

He will be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or outer sides of the feet. He will stand erect, without rigidity and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows:—

He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder-blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted. The minimum and maximum will then be recorded. In recording the measurements, fractions of less than half an inch should not be noted.

5. The candidate will also be weighed, and his weight recorded in pounds. Fractions of a pound should not be noted.

6. The examination for determining the acuteness of vision includes two tests, one for distant, the other for near vision. The Snellen's type should be used for the test for distant vision, without glasses at a distance of 20 feet, and for the test for near vision without glasses, at any distance selected by the candidate. The standards of the minimum acuteness of vision with which a candidate will be considered fit are:—

Better eye.	Worse eye.
Distant vision—V-6/6.	Distant vision not below 6/60.
	After correction with glasses not below 6/18.
Near vision reads 0·6.	Near vision reads 0·6

Each eye must have a full field of vision as tested by hand movements.

Squint or any morbid condition of the eyes or of the lid of either eye liable to the risk of aggravation or recurrence will cause rejection of the candidate.

Each eye will be examined separately. The candidate will be required to read the tests in ordinary daylight.

Inability to distinguish the principal colours will not be regarded as cause for rejection but the fact will be noted in the proceedings and the candidate informed.

No relaxation of the standard of vision will be allowed.

7. The following additional points will then be observed:—

(*a*) That his hearing is good. (The ears should be examined internally with an auroscope.)

(*b*) That his speech is without impediment.

(*c*) That his teeth are in good order. He must have 10 sound teeth in the upper jaw functionally opposed to 10 sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well filled teeth will be considered as sound.

(*d*) That his chest is well formed and that his lungs and heart are sound.

(*e*) That he is not ruptured.

(*f*) That he does not suffer from a severe degree of varicocele* or varicose veins. A candidate who has been successfully operated on will be accepted.

*Severe varicocele is defined as follows:—

(1) Where the mass of veins is so great that it hangs down in front of the testicle when the candidate stands up.

(2) If the cord is elongated to such an extent that the testicle hangs at a level obviously lower than normal, of course allowing for the fact that the left testicle is usually at a lower level than the right.

(3) If there is atrophy to such an extent that the affected testicle is estimated at less than half of the bulk of gland on the sound side.

(4) Undescended testicle should only be considered a disqualification when situated within the inguinal canal, or at the external ring.

(*g*) That his limbs are well formed and developed.

(*h*) That there is free and perfect motion of all joints.

(*i*) That his feet and toes are well formed.

(*j*) That he does not suffer from any inveterate skin disease.

(*k*) That he has no congenital malformation or defect.

(*l*) That he does not bear traces of previous acute or chronic disease pointing to an impaired constitution.

(*m*) That the candidate's age is as near as possible correctly stated.

(*n*) That he has no chronic affection of the tonsils which, sooner or later, may have to be dealt with by operation. In such a case, the tonsils should be removed before he joins the College.

APPENDIX II.

The following will be the subjects for the examination:—

		Maximum marks.	Duration.
(1)	English	170	2 hours.
(2)	Viva Voce	30	....
(3)	Arithmetic	200	1½ hours.

APPENDIX I.

Physical condition for admission to the Prince of Wales's Military College, Dehra Dun.

1. To be passed as fit for admission to the Prince of Wales's Military College, a candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of military duty.

2. A standard for height and chest measurement and physical development cannot be laid down, but the candidate should not be below the average for his age and race.

3 The candidate's height will be measured as follows:—

He will be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or outer sides of the feet. He will stand erect, without rigidity and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows:—

He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder-blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted. The minimum and maximum will then be recorded. In recording the measurements, fractions of less than half an inch should not be noted.

5. The candidate will also be weighed, and his weight recorded in pounds Fractions of a pound should not be noted.

6. The examination for determining the acuteness of vision includes two tests; one for distant, the other for near vision. The Snellen's type should be used for the test for distant vision, without glasses at a distance of 20 feet, and for the test for near vision without glasses, at any distance selected by the candidate. The standards of the minimum acuteness of vision with which a candidate will be considered fit are:—

Better eye.	Worse eye.
Distant vision—V-6/6.	Distant vision not below 6/60.
	After correction with glasses not below 6/18.
Near vision reads 0·6.	Near vision reads 0·6

Each eye must have a full field of vision as tested by hand movements.

Squint or any morbid condition of the eyes or of the lid of either eye liable to the risk of aggravation or recurrence will cause rejection of the candidate.

Each eye will be examined separately. The candidate will be required to read the tests in ordinary daylight.

Inability to distinguish the principal colours will not be regarded as cause for rejection but the fact will be noted in the proceedings and the candidate informed.

No relaxation of the standard of vision will be allowed.

7. The following additional points will then be observed:—

(*a*) That his hearing is good. (The ears should be examined internally with an auroscope.)

(*b*) That his speech is without impediment.

(*c*) That his teeth are in good order. He must have 10 sound teeth in the upper jaw functionally opposed to 10 sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well filled teeth will be considered as sound.

(*d*) That his chest is well formed and that his lungs and heart are sound.

(*e*) That he is not ruptured.

(*f*) That he does not suffer from a severe degree of varicocele* or varicose veins. A candidate who has been successfully operated on will be accepted.

*Severe varicocele is defined as follows:—

(1) Where the mass of veins is so great that it hangs down in front of the testicle when the candidate stands up.

(2) If the cord is elongated to such an extent that the testicle hangs at a level obviously lower than normal, of course allowing for the fact that the left testicle is usually at a lower level than the right.

(3) If there is atrophy to such an extent that the affected testicle is estimated at less than half of the bulk of gland on the sound side.

(4) Undescended testicle should only be considered a disqualification when situated within the inguinal canal, or at the external ring.

(*g*) That his limbs are well formed and developed.

(*h*) That there is free and perfect motion of all joints.

(*i*) That his feet and toes are well formed.

(*j*) That he does not suffer from any inveterate skin disease.

(*k*) That he has no congenital malformation or defect.

(*l*) That he does not bear traces of previous acute or chronic disease pointing to an impaired constitution.

(*m*) That the candidate's age is as near as possible correctly stated.

(*n*) That he has no chronic affection of the tonsils which, sooner or later, may have to be dealt with by operation. In such a case, the tonsils should be removed before he joins the College.

45C. *Transfer of pending proceedings.*—(1) Where a winding up order is made or has been made in respect of a banking company, no suit or other legal proceeding, whether civil or criminal, in respect of which the High Court has jurisdiction under this Act and which is pending in any other court immediately before the commencement of the Banking Companies (Amendment) Ordinance, 1953, or the date of the order for the winding up of the banking company, whichever is later, shall be proceeded with except in the manner hereinafter provided.

(2) The official liquidator shall, within three months from the date of the winding up order or the commencement of the Banking Companies (Amendment) Ordinance, 1953, whichever is later, submit to the High Court a report containing a list of all such pending proceedings together with particulars thereof.

(3) On receipt of a report under sub-section (2), the High Court may, if it so thinks fit, give the parties concerned an opportunity to show cause why the proceedings should not be transferred to itself and after making an inquiry in such manner as may be provided by rules made under section 45H, it shall make such order as it deems fit transferring to itself all or such of the pending proceedings as may be specified in the order and such proceedings shall thereafter be disposed of by the High Court.

(4) If any proceeding pending in a court is not so transferred to the High Court under sub-section (3), such proceeding shall be continued in the court in which the proceeding was pending.

(5) Nothing in this section shall apply to any proceeding pending in appeal before the Supreme Court or a High Court.

(2) Subject to any rules that may be made under section 52, the official liquidator shall, within six months from the date of the winding up order or the commencement of the Banking Companies (Amendment) Ordinance, 1953, whichever is later, from time to time, file to the High Court lists of debtors containing such particulars as are specified in the Fourth Schedule:

Provided that such lists may, with the leave of the High Court, be filed after the expiry of the said period of six months.

(3) On receipt of any list under sub-section (2), the High Court shall, wherever necessary, cause notices to be issued on all persons affected and after making an inquiry in such manner as may be provided by rules made under section 45U, it shall make an order settling the list of debtors:

Provided that nothing in this section shall debar the High Court from settling any such list in part as against such of the persons whose debts have been settled without settling the debts of all the persons placed on the list.

(4) At the time of the settlement of any such list, the High Court shall pass an order for the payment of the amount due by each debtor and make such further orders as may be necessary in respect of the relief claimed, including reliefs against any guarantor or in respect of the realisation of any security.

(5) Every such order shall, subject to the provisions for appeal, be final and binding for all purposes as between the banking company on the one hand and the person against whom the order is passed and all persons claiming through or under him on the other hand, and shall be deemed to be a decree in a suit.

(6) In respect of every such order, the High Court shall issue a certificate specifying clearly the reliefs granted and the names and descriptions of the parties against whom such reliefs have been granted, the amount of costs awarded and by whom, and out of what funds and in what proportion, such costs are to be paid; and every such certificate shall be deemed to be a certified copy of the decree for all purposes including execution.

(7) At the time of settling the list of debtors or at any other time prior or subsequent thereto, the High Court shall have power to pass any order in respect of a debtor on the application of the official liquidator for the realisation, management, protection, preservation or sale of any property given as security to the banking company and to give such powers to the official liquidator to carry out the aforesaid directions as the High Court thinks fit.

(8) The High Court shall have power to sanction a compromise in respect of any debt and to order the payment of any debt by instalments.

(9) In any case in which any such list is settled *ex parte* as against any person, such person may, within thirty days from the date of the order settling the list, apply to the High Court for an order to vary such list, so far as it concerns him, and if the High Court is satisfied that he was prevented by any sufficient cause from appearing on the date fixed for the settlement of such list and that he has a good defence to the claim of the banking company on merits, the High Court may vary the list and pass such orders in relation thereto as it thinks fit:

Provided that the High Court may, if it so thinks fit, entertain the application after the expiry of the said period of thirty days.

(10) Nothing in this section shall—

(a) apply to a debt which has been secured by a mortgage of immovable property, if a third party has any interest in such immovable property; or

(b) prejudice the rights of the official liquidator to recover any debt due to a banking company under any other law for the time being in force.

45E. *Special provisions to make calls on contributories.*—Notwithstanding that the list of the contributories has not been settled under section 184 of the Indian Companies Act, 1913 (VII of 1913), the High Court may, if it appears to it necessary or expedient so to do, at any time after making a winding up order, make a call on and order payment thereof by any contributory under sub-section (1) of section 187 of the Indian Companies Act, 1913, if such contributory has been placed on the list of contributories by the official liquidator and has not appeared to dispute his liability.

45F. *Documents of banking company to be evidence.*—(1) Entries in the books of account or other documents of a banking company which is being wound up shall be admitted in evidence in all proceedings by or against the banking company; and all such entries may be proved either by the production of the books of account or other documents of the banking company containing such entries or by the production of a copy of the entries, certified by the official liquidator under his signature and stating that it is a true copy of the original entries and that such original entries are contained in the books of account or other documents of the banking company in his possession.

(2) Notwithstanding anything to the contrary contained in the Indian Evidence Act, 1872 (I of 1872), all such entries in the books of account or other documents of a banking company shall, as against the directors of the banking company in respect of which the winding up order has been made before the commencement of the Banking Companies (Amendment) Ordinance, 1953, be *prima facie* evidence of the truth of all matters purporting to be therein recorded.

45G. *Public examination of directors and auditors.*—(1) Where an order has been made for the winding up of a banking company, the official liquidator shall submit a report whether in his opinion any

loss has been caused to the banking company since its formation by any act or omission (whether or not a fraud has been committed by such act or omission) of any person in the promotion or formation of the banking company or of any director or auditor of the banking company.

(2) If, on consideration of the report submitted under sub-section (1), the High Court is of opinion that any person who has taken part in the promotion or formation of the banking company or has been a director or an auditor of the banking company should be publicly examined, it shall hold a public sitting on a date to be appointed for that purpose and direct that such person, director or auditor shall attend thereat and shall be publicly examined as to the promotion or formation or the conduct of the business of the banking company, or as to his conduct and dealings, in so far as they relate to the affairs of the banking company.

(3) The official liquidator shall take part in the examination and for that purpose may, if specially authorised by the High Court in that behalf, employ such legal assistance as may be sanctioned by the High Court.

(4) Any creditor or contributory may also take part in the examination either personally or by any person entitled to appear before the High Court.

(5) The High Court may put such questions to the person examined as it thinks fit.

(6) The person examined shall be examined on oath and shall answer all such questions as the High Court may put or allow to be put to him.

(7) A person ordered to be examined under this section may, at his own cost, employ any person entitled to appear before the High Court who shall be at liberty to put to him such questions as the High Court may deem just for the purpose of enabling him to explain or qualify any answers given by him:

Provided that if he is, in the opinion of the High Court, exculpated from any charges or suggestions made against him, the High Court may allow him such costs in its discretion as it may deem fit.

(8) Notes of the examination shall be taken down in writing, and shall be read over to or by, and signed by, the person examined and may thereafter be used in evidence against him in any proceeding, civil or criminal, and shall be open to the inspection of any creditor or contributory at all reasonable times.

(9) Where on such examination, the High Court is of opinion (whether a fraud has been committed or not)—

(a) that a person who has been a director of the banking company is not fit to be a director of a company, or

(b) that a person who has been an auditor of the banking company or a partner of a firm acting as such auditor is not fit to act as an auditor of a company or to be a partner of a firm acting as such auditor,

the High Court may make an order that that person shall not, without the leave of the High Court, be a director of, or in

any way, whether directly or indirectly, be concerned or take part in the management of any company or, as the case may be, act as an auditor of, or be a partner of a firm acting as auditors of, any company for such period not exceeding five years as may be specified in the order.

45H. *Special provisions for assessing damages against delinquent directors, etc.*—(1) Where an application is made to the High Court under section 235 of the Indian Companies Act, 1913 (VII of 1913) against any promoter, director, manager, liquidator or officer of a banking company for repayment or restoration of any money or property and the applicant makes out a *prima facie* case against such person, the High Court shall make an order against such person to repay and restore the money or property unless he proves that he is not liable to make the repayment or restoration either wholly or in part:

Provided that where such an order is made jointly against two or more such persons, they shall be jointly and severally liable to make the repayment or restoration of the money or property.

(2) Where an application is made to the High Court under section 235 of the Indian Companies Act, 1913 (VII of 1913) and the High Court has reason to believe that a property belongs to any promoter, director, manager, liquidator or officer of the banking company, whether the property stands in the name of such person or any other person as the ostensible owner, then, the High Court may, at any time, whether before or after making an order under sub-section (1), direct the attachment of such property, or such portion thereof, as it thinks fit and the property so attached shall remain subject to attachment unless the ostensible owner can prove to the satisfaction of the High Court that he is the real owner and the provisions of the Code of Civil Procedure, 1908 (Act V of 1908) relating to attachment of property shall, as far as may be, apply to such attachment.

45I. *Duty of directors and officers of banking company to assist in the realisation of property.*—Every director or other officer of a banking company which is being wound up shall give such assistance to the official liquidator as he may require in the realisation and distribution of the property of the banking company and if the director or other officer fails to do so, he shall be guilty of contempt of court.

45J. *Special provisions for punishing offences in relation to banking companies being wound up.*—(1) The High Court may, if it thinks fit, take cognizance of and try in a summary way any offence alleged to have been committed by any person who has taken part in the promotion or formation of the banking company which is being wound up or by any director, manager or officer thereof:

Provided that the offence is one punishable under this Act or under the Indian Companies Act, 1913 (VII of 1913).

(2) When trying any such offence as aforesaid, the High Court may also try any other offence not specified under sub-section (1) which is an offence with which the accused may, under the Code of Criminal Procedure, 1898 (Act V of 1898), be charged at the same trial.

(3) In any case tried summarily under sub-section (1), the High Court—

(a) need not summon any witness, if it is satisfied that the evidence of such witness will not be material;

(b) shall not be bound to adjourn a trial for any purpose unless such adjournment is, in the opinion of the High Court, necessary in the interests of justice;

(c) shall, before passing any sentence, record judgment embodying the substance of the evidence and also the particulars specified in section 263 of the Code of Criminal Procedure, 1898 (Act V of 1898), so far as that section may be applicable;

and nothing contained in sub-section (2) of section 262 of the Code of Criminal Procedure, 1898, shall apply to any such trial

(4) All offences in relation to winding up alleged to have been committed by any person specified in sub-section (1) which are punishable under this Act or under the Indian Companies Act, 1913 (VII of 1913) and which are not tried in a summary way under sub-section (1) shall, notwithstanding anything to the contrary contained in that Act or the Code of Criminal Procedure, 1898 (Act V of 1898), or in any other law for the time being in force, be taken cognizance of and tried by a Judge of the High Court other than the Judge for the time being dealing with the proceedings for the winding up of the banking company.

(5) Notwithstanding anything to the contrary contained in the Code of Criminal Procedure, 1898 (Act V of 1898), the High Court may take cognizance of any offence under this section without the accused being committed to it for trial and all such trials shall be without the aid of a jury.

45K. *Power of High Court to enforce schemes of arrangements, etc.*— (1) Where a High Court makes an order under section 153 of the Indian Companies Act, 1913 (VII of 1913) sanctioning a compromise or arrangement in respect of a banking company, it shall have power to supervise the carrying out of the compromise or arrangement and may at the time of making such order or at any time thereafter give such directions in regard to any matter or make such modifications in the compromise or arrangement, as it may consider necessary for the proper working of the compromise or arrangement.

(2) If the High Court is satisfied that a compromise or arrangement sanctioned under section 153 of the Indian Companies Act, 1913 (VII of 1913) cannot be worked satisfactorily with or without modifications, it may, either on its own motion or on the application of any person interested in the affairs of the banking company, make an order winding up the banking company and such an order shall be deemed to be an order made under section 162 of the Indian Companies Act, 1913.

(3) The provisions of this section shall, so far as they may, apply to a banking company in respect of which an order under section 153 of the Indian Companies Act, 1913 (VII of 1913) sanctioning a compromise or arrangement has been made before the commencement of the Banking Companies (Amendment) Ordinance, 1953.

(2) Where a compromise or arrangement is sanctioned under section 153 of the Indian Companies Act, 1913 (VII of 1913) in respect of a banking company, the provisions of section 235 of the said Act and of section 45H of this Act shall, as far as may be, apply to the banking company which is being wound up as if the order sanctioning the compromise or arrangement were an order for the winding up of the banking company.

45M. *Special provisions for banking companies working under schemes of arrangement at the commencement of the Ordinance.*—Where any compromise or arrangement sanctioned in respect of a banking company under section 153 of the Indian Companies Act, 1913 (VII of 1913) is being worked at the commencement of the Banking Companies (Amendment) Ordinance, 1953, the High Court may, if it so thinks fit, on the application of such banking company,—

(3) If the Central Government, on consideration of the report of the Reserve Bank, is of opinion that there has been a substantial irregularity or breach of duty in the winding up proceedings it may bring such irregularity to the notice of the High Court for such action as the High Court may think fit.

(4) On receipt of the report of the Reserve Bank under sub-section (2) or on any irregularity being brought to its notice by the Central Government under sub-section (3), the High Court may, as it deems fit, after giving notice to and hearing the Central Government in regard to the report, give such directions as it may consider necessary.

The jury system is unnecessary and assessor system is useless

Oftentimes the Jury returns perverse verdicts and Sessions Judges generally disinclined to submit such cases to the High Court under sec 307 of the Code of Criminal Procedure for a variety of reasons Wha justification there might have been for the introduction of the system, out-moded. Our Judiciary is one of the best in the world and the ro independence of our Judiciary is the sentinel guarding the liberty of individual. Should there be any mistake, there are a series of appe courts to rectify.

The economy involved in their abolition will be enormous, and the will become much simplified.

Hence this Bill.

Having regard to this provision it is necessary to provide that rebate for agricultural land in such cases will be one-fourth of the duty yable on the agricultural land at an average rate.

STATEMENT OF OBJECTS AND REASONS.

In 1946, an industrial dispute arose between the nine former Government Railway Administrations and their respective employees about the hours of work, periods of rest, etc., laid down in Chapter VIA of the Indian Railways Act, 1890. The matter was, by consent, made the subject of adjudication. The Adjudicator gave his award in 1947. The Government have accepted the award in respect of hours of work, periods of rest and leave reserves. The chief changes accepted in consequence of the Adjudicator's award in respect of hours of work and periods of rest are—

(*a*) an all round curtailment of hours of work;

(*b*) the introduction of a new category of workers, namely, intensive workers;

(*c*) a radical change in the definition of intermittent workers;

(*d*) a general liberalisation of periodical rest and bringing more categories of workers within its purview;

(*e*) the inclusion of running staff within the scope of the provisions.

2. Although the implementation of these changes could be, and is being, achieved by amending the rules framed under section 71E of the Indian Railways Act, 1890, it is considered advisable to incorporate the changes in respect of hours of work and periods of rest, etc., by an amendment of the Indian Railways Act itself. Such radical changes should be effected by an amendment of the Act. Moreover, it will be in line with international practice. The International Labour Organisation to which our country belongs attaches considerable importance to statutory protection to the workmen in respect of such matters. Legally, the award applied only to the railways which were parties to the industrial dispute. It is, however, necessary to apply it to the staff of the other railways also and it is advisable to place them on the same footing by extending to them the protection which the legislation confers.

STATEMENT OF OBJECTS AND REASONS.

The institution of brothels has existed in many countries along with our from time immemorial but it has degenerated to its unthinkably cruel and hideous proportions mainly during the present century. Advanced countries all over the world and certain States in our own country also have taken measures to stop and check this social evil; but the law in some of the States has been defective to the point of being ineffective. In some States no legislative action at all has been taken in this sphere so far. It, therefore, seems that the time has come when legislation on all-India basis should be undertaken urgently to check this evil and to stop the immoral traffic in women and children resultant on the unchecked existence of brothels. The Bill seeks to make provision accordingly.

STATEMENT OF OBJECTS AND REASONS.

The Government of India have ratified the I.L.O. Conventions Nos. 89 a 90 prohibiting employment of women and young persons during night in factori It is, therefore, necessary to amend sections 66, 70 and 71 of the Factories A 1948, to give effect to the provisions of the Conventions.

2. The provisions in the Act relating to annual leave with wages have b causing considerable difficulty particularly in determining the 12 months' "C tinuous Service" for eligibility to leave with wages. It has, therefore, beco necessary to simplify the provisions so as to remove any cause for difference opinion between employers and workers.

3. This opportunity is also taken to incorporate in the Act certain ot amendments which would remove some practical diffculties experienced in working of the Act during the last four and a half years. The reasons amendments are, wherever necessary, given in the Notes on Clauses attached this Bill.

NEW DELHI ;

Notes on clauses.

Clause 2.—The existing sub-clause *k*(*iv*) as it is worded, excludes some the presses including Government presses from the scope of the Act as t cannot be considered as being carried on by way of trade or for purposes gain. As it is not the intention to exclude them from the Act, it is necess to amend the sub-clause to make the intention clear. It is also necessary amend the definition of "manufacturing process" to cover separate prem engaged in "composing types for printing".

Clause 3.—The existing section 4 empowers the State Governments to declare ifferent departments of a factory as separate factories. But there is no provision) enable two or more factories of the same occupier being declared as a single ictory if an application for that purpose is made by the occupier. This clause rovides for that.

Clause 6.—The amendment is intended to make it clear that women and oung persons will be prohibited from cleaning, lubricating or adjusting any rime mover or transmission machinery while it is in motion only if such work ould expose them to risk of injury.

Clause 7.—This clause makes it clear that all new machines should comply ith the requirements of encasement specified in sub-section (*1*) of section 26 and authorises State Governments to make rules specifying any further safeguards) be provided in respect of any class or description of machines.

Clause 8.—Section 29 is being revised with a view to prescribing clearly the afety requirements not only in respect of cranes and other lifting machinery but lso in respect of chains, ropes and lifting tackles.

Clause 11.—This clause will permit six hours' work at a stretch without ny interval when the total number of hours to be worked on any day in a shift oes not exceed six. This is intended mainly to enable workers to avail themelves of half holidays in full on Saturdays wherever such holidays are allowed. will also permit newspaper printing presses to work their entire night shift of six ours at a stretch.

Clause 12.—The existing sub-section (*2*) empowers State Governments to ame rules exempting any factory or class of factories from the provisions relating) overlapping shifts. It has been found not possible to prescribe by rules the ype of factories or the conditions under which the exemption can be granted) these factories as the grant of exemption has to be considered on the ircumstances of each case. A re-draft of the section has, therefore, become ecessary.

Clause 13.—The calculation of "cash equivalent of the advantage accruing rough the concessional sale to workers of foodgrains and other articles" for the urpose of computing the ordinary rate of wages of individual workers for payent of wages for overtime is creating difficulties. Calculation to be made in ach individual case depends on the size of the family, the actual rations bought s distinct from the maximum quantities the worker is entitled to buy and the ctual difference. This involves considerable volume of clerical and computational work and the only practical way of avoiding this is to lay down in the ection itself that the cash equivalent will be computed on the basis of the aximum ration admissible to a standard family of a specific number consumpon units. This clause is intended for this purpose.

Clause 15.—This amendment will liberalise the working of overtime. The ended section will also enable continuous employment of workers in case me of the subsequent shift workers do not turn up in time.

Clauses 17, 18 and 19.—The amendments of sections 66, 70 and 71 are r the purpose of bringing the provisions in conformity with the I.L.O. Conntions Nos. 89 and 90 prohibiting employment of women and children during ght in factories.

Clause 20.—Chapter VIII relating to leave with wages is revised in order simplify the existing provisions. According to the existing law, a worker s to put in 12 months' "Continuous Service" for eligibility to leave with wages. he determination of "continuous service" has, however, been causing consirable difficulty as interruptions on account of various causes such as sickness,

involuntary unemployment, etc., have to be reckoned with. A period of two hundred and forty days has now been fixed as the minimum attendance necessary during a calendar year to qualify for leave with wages. This condition of qualifying service will not be applicable to workers who are discharged or dismissed by the employer in the course of the year. Proportionate leave will be granted to workers whose service commences after the beginning of the calendar year. The annual leave with wages admissible under the Act will be exclusive of holidays occurring during or at either end of the period of leave. The limit of the leave that can be carried forward has been raised. No prior notice will be necessary when a worker requires leave to cover a period of illness. The sums payable by an employer on account of leave with wages will be recoverable as if they were wages under the Payment of Wages Act.

Clause 21.—Section 93 has been recast to specify more clearly and definitely the responsibility for compliance with the various provisions of the Act between the owners of the premises and the occupier of the factory.

STATEMENT OF OBJECTS AND REASONS.

The working of the Employees' Provident Funds Act has brought out certain defects.

The principal defect relates to the application of the Act and the Scheme. There are considerable doubts regarding the expressions used in Schedule I. No authority has been prescribed for removing doubts and difficulties. There is no power for applying the Scheme to a factory not covered by the Act even when the employer and the employees ask for such application.

At present the employees of exempted factories are not entitled to the benefits of nomination, protection against attachment or prior claim on the assets of an insolvent employer. It is not possible to grant exemption to any factory from the operation of the Scheme on economic grounds.

There are also certain administrative difficulties to be set right. There is no provision for inspection of exempted factories; nor is there any provision for the recovery of dues from such factories. An employer can delay payment of provident fund dues without any additional financial liability. No punishment has been laid down for contraventions of some of the provisions of the Act.

This Bill seeks primarily to remedy these defects.

C. R. BANERJEE,
for Director of Agriculture, West Bengal.

RECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 6th October 1953.

liminary Forecast of Autumn Rice Crop of West Bengal for 1953-54.

ote.—The figures of area this year are the first estimates of State Statistical Bureau, these being based on the analysis of half sample "A" of their random Sample Survey, while those of last year have been taken from the last year's final forecast based on the analysis of complete materials of the Sample Survey conducted by the Bureau. The yield rates of last year have been taken from the last year's final forecast based on crop cutting experiments carried out by the State Statistical Bureau, while those of this year are based on the eye-estimates of the staff of the Agriculture Directorate, it being too early for crop cutting experiments].

Season.—The weather has generally been favourable for the sowing and growth of the crop in the district except Darjeeling. It has however been reported from some districts that certain areas have been damaged by insect-pests, rice-bug and heavy rainfall and flood though the weather conditions have on the whole been favourable.

Area and yield.—1,629,600 acres have been estimated to be under Autumn rice this year as against 1,395,300 acres and 1,356,800 acres reported respectively in the corresponding and final forecast of last year. The average yield of cleaned rice per acre for the State as a whole is tentatively estimated to be 9·19 mds. this year compared to 8·97 maunds, the final estimate of last year. The increase in area and expected yield of Autumn rice is mainly due to fall in area of jute and favourable weather conditions.

for Director of Agriculture,
West Bengal.

Calcutta, the 14th August 1953.

First Forecast of Cotton Crop of West Bengal for 1953-54.

Season.—The weather conditions have not been favourable at the sowing time in all the districts of West Bengal. It has also been reported that drought and continuous rainfall affected the sowing specially in the districts of Murshidabad, Midnapore and Bankura.

Area sown.—950 acres have been estimated to l under cotton this year compared to 1,810 acres, t final estimate of last year. The entire area reported to have been sown with Parbhani Amer can variety this year (with Long Staple).

Decrease in acreage is due to the unfavourab weather conditions in the early stage as a resu whereof sowing could not be done in proper tim It is however reported that sowing is still goin on.
